**Blushing Beauties**

A beautiful new spa is blooming in Newtown. Blossom, the new hot spot for ultra-luxe facials and hard-to-find beauty lines such as Shu Uemura, Scott Brown and Sonya Dakar, offers customized facials followed by complimentary make-up application. For the ultimate beauty indulgence, Blossom offers eyelash extensions that last up to six weeks. Owner Terry Sykes, a former Dermalogica sales rep, has brought her chic style and extensive experience with skin-care to this new venture. Esthetician and make-up artist Kathleen Cunningham gives luxurious facials that leave your skin looking flawless and feeling fresh. Blossom also carries European fragrance products including those by Serge Lutens and Carthusia. 13 South State Street, Newtown, 215-860-3388, blossomcosmeticboutique.com.

**Color By Numbers**

After 20 years in corporate America, Karyn and Michael Grecco were ready for a change. Lucky for us, that change resulted in Red Green Blue, Princeton's new craft studio and art gallery. This family-friendly workspace is well-stocked with artist's materials to create mosaics, collage, decoupage, painting and glass fusing. Pricing is by project and there's no time limit or studio fees. The gift gallery features whimsical gifts and luxury goods celebrating the arts. In addition to the drop-in studio, Red Green Blue hosts some of the most entertaining birthday parties, as well as spring break and summer camp programs. 4 Hullfish St., Princeton, 609-683-5100, red-green-blueonline.com .
