

WaxWorks

Your Image, Our Creation

WaxWorks is a collaboration of photography and the ancient Greek technique, **encaustic** painting, (beeswax and paint pigment), which dates back to 800 B.C. At *WaxWorks* we'll use your image to create a unique fine art piece.

WaxWorks prints your image and mounts it on a wood panel with archival glue. A coating of natural beeswax embellishes the surface with an oil paint and liquid resin. Custom colors are chosen to enhance the texture and tonality of each piece and truly make it one of a kind.

Why Enroll?

WaxWorks expands your product choices.

- Your studio enrolls in our wholesale program.
- You offer your clients a *WaxWorks* fine art piece.
- You supply the image and we supply the finished creation.
- You deliver a finished piece to your client.
- You will see the results in your client's satisfaction along with your bottom line.

WaxWorks offers professional and amateur photographers a unique opportunity to provide clients with a piece of fine art that elegantly merges encaustic painting and photography.
